

Dear Sir,

I will be brief, I just want to say that I completely agree with No Code Internationals request to eliminate the more code requirement. I think that this only keeps bright young kids out of the hobby because they think that morse code is obsolete. Certainly they could bring much to the hobby with computer related skills. Once in the hobby, the interest in code will come later. Please act quickly to change the rules to eliminate a need for Element 1, the morse code test.

Thank you for allowing me to file these comments so easily via your web site.

Ronnie Jackson, WB5PIW
